The story of how a chemical weapon went from the battlefield to the streets More than a hundred years ago, French troops fired the first tear gas grenades at the German enemy. Designed to force people out from cover, tear gas causes tearing and gagging, burning the eyes and skin. Its use has ended in miscarriages, permanent injuries, and death. While all but a few countries have agreed that it is illegal to manufacture, stockpile, or use chemical weapons of war, tear gas continues to proliferate in civilian settings. Today, it is a best-selling form of “ less lethal ” police force. From Ferguson to the Occupied Territories of Palestine, images of protesters assaulted with “ made in the USA ” tear gas canisters have been seen around the world. The United States is the largest manufacturer, and Brazil and South Korea are rapidly growing markets, while Britain has found an international audience for its riot control expertise. An engrossing century-spanning global narrative, *Tear Gas* is the first history of this poorly understood weapon. Anna Feigenbaum travels from military labs and chemical weapons expos to union assemblies and protest camps, drawing on declassified reports and eyewitness testimonies to show how policing with poison came to be.

Sodas are astonishing products. Little more than flavored sugar-water, these drinks cost practically nothing to produce or buy, yet have turned their makers--principally Coca-Cola and PepsiCo--into a multibillion-dollar industry with global recognition, distribution, and political power. Billed as "refreshing," "tasty," "crisp," and "the real thing," sodas also happen to be so well established to contribute to poor dental hygiene, higher calorie intake, obesity, and type-2 diabetes that the first line of defense against any of these conditions is to simply stop drinking them. Habitually drinking large volumes of soda not only harms individual health, but also burdens societies with runaway healthcare costs. So how did products containing absurdly inexpensive ingredients become multibillion dollar industries and international brand icons, while also having a devastating impact on public health? In *Soda Politics*, the 2016 James Beard Award for Writing & Literature Winner, Dr. Marion Nestle answers this question by detailing all of the ways that the soft drink industry works overtime to make drinking soda as common and accepted as drinking water, for adults and children. Dr. Nestle, a renowned food and nutrition policy expert and public health advocate, shows how sodas are principally miracles of advertising; Coca-Cola and PepsiCo spend billions of dollars each year to promote their sale to children, minorities, and low-income populations, in developing as well as industrialized nations. And once they have stimulated that demand, they leave no stone unturned to protect profits. That includes lobbying to prevent any measures that would discourage soda sales, strategically donating money to health organizations and researchers who can make the science about sodas appear confusing, and engaging in Corporate Social Responsibility (CSR) activities to create goodwill and silence critics. *Soda Politics* follows the money trail wherever it leads, revealing how hard Big Soda works to sell as much of their products as possible to an increasingly obese world. But *Soda Politics* does more than just diagnose a problem--it encourages readers to help find solutions. From Berkeley to Mexico City and beyond, advocates are successfully countering the relentless marketing, promotion, and political protection of sugary drinks. And their actions are having an impact--for all of the hardball and softball tactics the soft drink industry employs to maintain the status quo, soda consumption has been flat or falling for years. Health advocacy

campaigns are now the single greatest threat to soda companies' profits. Soda Politics provides readers with the tools they need to keep up pressure on Big Soda in order to build healthier and more sustainable food systems.

When No One Is Watching is a compilation of poems about love and the loss thereof, trauma and the dark reflections that come with it. It is a depiction of sides that people don ' t readily show, sides of vulnerability, insecurity and tiny amounts of hope. One could say it is the result of shedding light into a world of secrecy, escapism, an alternate reality belonging to an alternate version of an individual. When No One Is Watching is the truth in its purest form.

Frank Beacham's autobiography tells of coming of age in the turbulent 1960s and his compelling lifetime adventures as an independent media storyteller. Beacham writes behind-the-scenes accounts of the madness at the 1968 Democratic National Convention in Chicago, the Apollo 11 moon launch, the civil rights movement in Mississippi, his chilling arrest by military dictator Manuel Noriega of Panama and covering American presidents throughout the world. Beacham describes his topsy-turvy collaboration with Orson Welles, working with the major television networks and breaking new ground in video production. *A PBS Great American Read Top 100 Pick With extraordinary relevance and renewed popularity, George Orwell's 1984 takes on new life in this edition. "Orwell saw, to his credit, that the act of falsifying reality is only secondarily a way of changing perceptions. It is, above all, a way of asserting power."—The New Yorker In 1984, London is a grim city in the totalitarian state of Oceania where Big Brother is always watching you and the Thought Police can practically read your mind. Winston Smith is a man in grave danger for the simple reason that his memory still functions. Drawn into a forbidden love affair, Winston finds the courage to join a secret revolutionary organization called The Brotherhood, dedicated to the destruction of the Party. Together with his beloved Julia, he hazards his life in a deadly match against the powers that be. Lionel Trilling said of Orwell's masterpiece, "1984 is a profound, terrifying, and wholly fascinating book. It is a fantasy of the political future, and like any such fantasy, serves its author as a magnifying device for an examination of the present." Though the year 1984 now exists in the past, Orwell's novel remains an urgent call for the individual willing to speak truth to power.*

*Examines our media-dominated world through the vast array of manufactured images and sounds that define our civilization, from video games to elevator music, action movies to reality shows, and punditry to Internet exhibitionists.*

*In the Cold War era, the confrontation between capitalism and communism played out not only in military, diplomatic, and political contexts, but also in the realm of culture—and perhaps nowhere more so than the cultural phenomenon of sports, where the symbolic capital of athletic endeavor held up a mirror to the global contest for the sympathies of citizens worldwide. The Whole World Was Watching examines Cold War rivalries through the lens of sporting activities and competitions across*

*Europe, Asia, Africa, Latin America, and the U.S. The essays in this volume consider sport as a vital sphere for understanding the complex geopolitics and cultural politics of the time, not just in terms of commerce and celebrity, but also with respect to shifting notions of race, class, and gender. Including contributions from an international lineup of historians, this volume suggests that the analysis of sport provides a valuable lens for understanding both how individuals experienced the Cold War in their daily lives, and how sports culture in turn influenced politics and diplomatic relations.*

*When no one is watching, it's easy to be brave -- to dance and sing, growl and cheer. But when everyone's watching, this book's shy young narrator finds it far easier to hide. With her best friend, Loretta, though, she doesn't feel shy, embarrassed, awkward, or odd -- not one bit. Together they're like two peas in a pod, whether anyone's watching or not. Any readers who have felt shy will certainly recognize themselves within the pages of this adorable book, which will encourage even the most timid of audiences with its celebration of the value of a good friend. Watch the trailer:*

*This book explores death in contemporary society - or more precisely, in the 'spectacular age' - by moving beyond classic studies of death that emphasised the importance of the death taboo and death denial to examine how we now 'do' death. Unfolding the notion of 'spectacular death' as characteristic of our modern approach to death and dying, it considers the new mediation or mediatisation of death and dying; the commercialisation of death as a 'marketable commodity' used to sell products, advance artistic expression or provoke curiosity; the re-ritualisation of death and the growth of new ways of finding meaning through commemorating the dead; the revolution of palliative care; and the specialisation surrounding death, particularly in relation to scholarship. Presenting a range of case studies that shed light on this new understanding of death in contemporary culture, *The Age of Spectacular Death* will appeal to scholars of sociology, cultural and media studies, psychology and anthropology with interests in death and dying.*

*Rear Window meets Get Out in this gripping thriller from a critically acclaimed and New York Times Notable author, in which the gentrification of a Brooklyn neighborhood takes on a sinister new meaning... Condos are sprouting like weeds, FOR SALE signs are popping up overnight, and the neighbors she's known all her life are disappearing. To hold onto her community's past and present, Sydney channels her frustration into a walking tour and finds an unlikely and unwanted assistant in one of the new arrivals to the block—her neighbor Theo. But Sydney and Theo's deep*

*dive into history quickly becomes a dizzying descent into paranoia and fear. Their neighbors may not have moved to the suburbs after all, and the push to revitalize the community may be more deadly than advertised. When does coincidence become conspiracy? film *Rear Window*, *Someone Is Watching* boasts the extraordinary edge-of-your-seat storytelling of bestselling author Joy Fielding at the height of her powers. As a special investigator for a hotshot Miami law firm, Bailey Carpenter is smart, savvy, and fearless. When she's assigned to spy on a deadbeat dad in the middle of the night, Bailey thinks nothing of the potential dangers, only that she needs to gather evidence. Then she is blindsided—attacked and nearly killed. Now the firm grip Bailey once had on her life is shaken. Her nightmares merge into her waking hours and she's unable to venture beyond her front door without panicking. A veritable prisoner in her own home, Bailey is uncertain whom she can trust. But old habits die hard, and soon Bailey finds a new use for her idle binoculars: casually observing from her window neighboring buildings and other people's lives. This seemingly harmless diversion becomes a guilty pleasure when Bailey fixates on the handsome guy across the street—until she realizes that he is also watching her. Suddenly she must confront the terrifying possibility that he may be the man who shattered her life. Though crippled by fear, Bailey knows she can't ignore her suspicions and risk leaving a predator at large. With the police making no headway in solving her case, she's determined to overcome her terror and reclaim the power she lost by unmasking her attacker and taking him down herself. But it's a harrowing battle that threatens to wreck Bailey's credibility, compromise an investigation, and maybe even claim her sanity. Praise for *Someone Is Watching* “*Someone Is Watching* gripped me from the first to the very last page. Bailey Carpenter is a heroine who's both victim and warrior woman, a fascinating sleuth who will linger with you long after you've finished this thrilling read.”—Tess Gerritsen “Joy Fielding has long been a go-to author for me. She never fails to deliver an edge-of-your-seat read, and with her patented blend of complex characters and escalating suspense she is in top form here. I highly recommend *Someone Is Watching*.”—Karen Robards “Joy Fielding pens a spiraling tale of paranoia and suspense, as sultry as a Miami night. Readers will find a heroine to root for, scold, and ultimately adore in Bailey Carpenter. Though comparisons to *Rear Window* will inevitably arise, Fielding has created something even more remarkable: a modern-day *Gaslight* in which both cat and mouse are real, flawed, and eminently relatable.”—Jenny Milchman “*Someone Is Watching* is a gripping, fast-paced psychological thriller reminiscent of *Rear Window* and the works of Lisa Gardner. . . . Not geared to the faint of heart, Fielding's story of one woman's search for justice, understanding, and internal peace is nothing short of arresting.”—Booklist (starred review) “This engrossing standalone from bestseller Fielding makes you care about Bailey Carpenter. . . . The characters pulsate with life, and there are a few shocks in store—for Bailey and the reader—before the denouement. And the presence of Jade, Claire's outspoken teen daughter, blows everyone else off the page.”—Publishers Weekly (starred review) “A pageturning ride with a likable protagonist.”—Kirkus Reviews

Chicago 1968 represents, perhaps as no other moment in American history, the flashpoint of cultural resistance to a militarized world out of control. In the summer of 1968, still reeling from the assassinations of Martin Luther King and Bobby Kennedy only months earlier, thousands of young people descended on the National Democratic Convention to show their opposition to the Vietnam War and their desire for a Peace platform. The showdown between "the longhairs" and "the pigs" would become one of the most violent and starkly emblematic confrontations ever broadcast on nightly news in the United States. "The whole world was watching," CBS reporter Dan Rather uttered on the floor of the convention center in Chicago, and he was correct: The 1968 Democratic Convention was the first nationally televised political convention. Police and National Guard troops, clashing with protesters, herded tens of thousands of demonstrators into exit-less corridors, and as the mayhem ensued, police indiscriminately cracked heads. Witnessing it all were some of the most attuned minds of the day, including Norman Mailer, Allen Ginsberg, Studs Terkel, and the "hard hitting investigative team" Esquire had assembled, which included Terry Southern, William Burroughs, and Jean Genet. Shortly after bumping into Southern at the bar of the Chateau Marmont in Los Angeles, photographer Michael Cooper decided to tag along, gaining official accreditation as photographer. Editors Nile Southern and Adam Cooper, having dreamt for many years about a print collaboration featuring their fathers' collective work-none more poignant than their accounts of the protests at the National Democratic Convention-here present Chicago 1968: The Whole World is Watching, a kaleidoscopic, on-the-ground account, told primarily through the words of Terry Southern and the photographs of Michael Cooper, a fitting tribute to two great artists of the 20th century.

It's been three miserable months since 13-year-old Chris Barton lost his little sister, Molly. "Missing, presumed drowned" was what the paper said, and surely that is what everyone believes. After all, the Bartons had been picnicking by the river when Molly disappeared. One night, Chris views a video he made the day Molly was lost. There doesn't seem to be anything unusual here: a rest stop, lunch by the river, a hungry squirrel, a familiar ice cream van. But the video harbors an awful secret. In the middle of the night, Christ Barton wakes from fitful sleep—and begins a journey filled with fear, doubt, and impossible hopes.

Combines true case stories with the latest research in a tour of the delusion-afflicted human mind to explore how it reflects neuroscience, biology and culture, tracing the sources of paranoia and psychosis to faulty interactions between the brain and the social world. 35,000 first printing.

A telling analysis of the pre-war media debate around the globe which set the stage for the 2003 Iraq war. By concentrating on the pre-war coverage, this group of scholars engages in a more open discussion of the issues than would take place during wartime, and uncovers the implications for each country's position on international concerns.

On September 4, 1957, nine African American teenagers made their way toward Central High School in Little Rock, Arkansas. They didn't make it very far. Armed soldiers of the Arkansas National Guard blocked most of them at the edge of campus. The three students who did make it onto campus faced an angry mob. White citizens spit at them and shouted ugly racial slurs. No black students entered Central that day. And if the angry mob had its way, black children would never attend school with white children. But the U.S. Supreme Court had ruled in 1955 that school segregation that is, separate schools for black children and white children was unconstitutional. The Court ordered the nation's schools to be integrated. Nowhere was that process more hateful and more horrific than in Little Rock. Eventually, the nine students did make it into Central High under the protection of army soldiers. Once inside Central, they faced a never-ending torrent of abuse from white students. But the nine students persevered. Their courage inspired the growing movement for African American civil rights.

"Written during the last years of the Weimar Republic, the two novels collected here address the urgent problems of that age. Both Erich Maria Remarque (1898-1970) and Joseph Roth (1894-1939) served in World War I, Remarque with the German army and Roth with the Austrian. Their experiences would help define what Gertrude Stein referred to as the "Lost Generation." All Quiet on the Western Front is the testimony of a soldier who had become aware of how much he, and those of his generation who had

**From the former President and CEO of the United States Tennis Association—the first black woman and youngest person ever to hold the position—comes a behind-the-scenes look at the leadership skills involved in hosting the U.S. Open, the largest and most lucrative sports event in the world—lessons that can be applied across business and to any life challenge. One of professional tennis's Grand Slam Tournaments, the U.S. Open has been described as a fourteen-day Superbowl. This single tennis championship, held annually in New York City, attracts top professionals from around the globe, generates more money than any other sporting event—or any other sport over an entire season—and attracts more than 700,000 attendees and millions of television viewers. In Own the Arena, Katrina Adams offers a privileged, singular inside look at this sensational global event, while elaborating on what makes tennis the only sport of a lifetime. She opens with the women's 2018 championship match between Naomi Osaka and Serena Williams that ended in boos. This was Adams's last year as president and the whole world was watching. How would she respond? How should the press be handled? What needs to be said to Osaka? Serena? What does this break from decorum mean for the Open and the sport? As Adams shares a wealth of stories from her career and personal life, as well as insights from top tennis professionals, she provides invaluable information on meeting life's**

tests both on the tennis court and off. *Own the Arena* offers fresh perspectives on having presence, being remembered, directing a conversation, and moving boldly in spaces where “you are the only one.” It also covers good sportsmanship—treating others with respect and by being inclusive and open to diverse perspectives. Tennis is said to be 90 percent mental; this book shows how to take the elements of mental fortitude and use them to achieve greatness. By embracing and expressing one’s inner grace and humanity, Adams shows, you can own the arena.

This is a story of reinvention. Jim Whitehurst, celebrated president and CEO of one of the world's most revolutionary software companies, tells first-hand his journey from traditional manager (Delta Air Lines, Boston Consulting Group) and “chief” problem solver to CEO of one of the most open organizational environments he'd ever encountered. This challenging transition, and what Whitehurst learned in the interim, has paved the way for a new way of managing—one this modern leader sees as the only way companies will successfully function in the future. Whitehurst says beyond embracing the technology that has so far disrupted entire industries, companies must now adapt their management and organizational design to better fit the Information Age. His mantra? “Adapt or die.” Indeed, the successful company Whitehurst leads—the open source giant Red Hat—has become the organizational poster child for how to reboot, redesign, and reinvent an organization for a decentralized, digital age. Based on open source principles of transparency, participation, and collaboration, “open management” challenges conventional business ideas about what companies are, how they run, and how they make money. This book provides the blueprint for putting it into practice in your own firm. He covers challenges that have been missing from the conversation to date, among them: how to scale engagement; how to have healthy debates that net progress; and how to attract and keep the “Social Generation” of workers. Through a mix of vibrant stories, candid lessons, and tested processes, Whitehurst shows how Red Hat has blown the traditional operating model to pieces by emerging out of a pure bottom up culture and learning how to execute it at scale. And he explains what other companies are, and need to be doing to bring this open style into all facets of the organization. By showing how to apply open source methods to everything from structure, management, and strategy to a firm's customer and partner relationships, leaders and teams will now have the tools needed to reach a new level of work. And with that new level of work comes unparalleled success. *The Open Organization* is your new resource for doing business differently. Get ready to make traditional management thinking obsolete.

Entertaining and scrupulously researched, *Chicago '68* reconstructs the 1968 Democratic Convention

in Chicago—an epochal moment in American cultural and political history. By drawing on a wide range of sources, Farber tells and retells the story of the protests in three different voices, from the perspectives of the major protagonists—the Yippies, the National Mobilization to End the War, and Mayor Richard J. Daley and his police. He brilliantly recreates all the excitement and drama, the violently charged action and language of this period of crisis, giving life to the whole set of cultural experiences we call "the sixties." "Chicago '68 was a watershed summer. Chicago '68 is a watershed book. Farber succeeds in presenting a sensitive, fairminded composite portrait that is at once a model of fine narrative history and an example of how one can walk the intellectual tightrope between 'reporting one's findings' and offering judgements about them."—Peter I. Rose, *Contemporary Sociology*

On the evening of Thursday, October 8, 1998, 20-year-old Romaine Patterson received a phone call that her best friend, Matthew Shepard, had been beaten and left hanging on a split-rail fence outside Laramie, Wyoming. Romaine was then thrust to the center of the worldwide media frenzy that descended on Laramie, and she came face-to-face with twisted homophobia when Baptist minister Fred Phelps and his followers picketed Matthew's funeral with signs reading, "Matt burns in hell." Upon learning of Phelps' plan to bring his ministry of hate to support Matt's killers at their trial, Romaine went into action. Who can forget the image of Romaine and her friends donning seven-foot angel wings so they could encircle Phelps and his gang, leaving the picketers silent and invisible? From that moment forward, Romaine has become a spokesperson for tolerance, acceptance, and nonviolence around the globe, whether as a founder of Angel Action, as a consultant for The Laramie Project (the award-winning play that has been produced hundreds of times and became an acclaimed HBO film starring Christina Ricci as Romaine). In one of their last conversations, Matt told Romaine that he wanted to spend his life helping people realize that they as individuals could make a difference in the world. This is Romaine Patterson's journey to realizing the truth of that statement. Wyoming native Romaine Patterson got started in activism when her close friend Matthew Shepard was killed. In April of 1999, she founded Angel Action, an organization for peaceful demonstration. Angel Action is now used all over the world as a means of combating hate. She has also served as a regional media manager for the Gay & Lesbian Alliance Against Defamation (GLAAD). She continues her work educating youth about hate crimes and has lectured at the University of Wyoming, Georgetown University, Penn State, and others. She currently lives in Brooklyn.

A New York Times Bestseller An unflinching account of what it means to be a young black man in

America today, and how the existing script for black manhood is being rewritten in one of the most fascinating periods of American history. How do you learn to be a black man in America? For young black men today, it means coming of age during the presidency of Barack Obama. It means witnessing the deaths of Oscar Grant, Trayvon Martin, Michael Brown, Akai Gurley, and too many more. It means celebrating powerful moments of black self-determination for LeBron James, Dave Chappelle, and Frank Ocean. In *Invisible Man*, Got the Whole World Watching, Mychal Denzel Smith chronicles his own personal and political education during these tumultuous years, describing his efforts to come into his own in a world that denied his humanity. Smith unapologetically upends reigning assumptions about black masculinity, rewriting the script for black manhood so that depression and anxiety aren't considered taboo, and feminism and LGBTQ rights become part of the fight. The questions Smith asks in this book are urgent--for him, for the martyrs and the tokens, and for the Trayvons that could have been and are still waiting.
